- Workshop & Event Coordination
- Stakeholder & Partner Management
- Project Planning & Scheduling
- Training Facilitation
- Assessment & Learning Support
- Digital Content Development
- Resource & Activity Planning
- Microsoft 365 & Collaboration Tools
- Web & Digital Platform Management
- Technology Integration
- Team Coordination & Mentoring
- Remote & Virtual Training Delivery

PROFESSIONAL EXPERIENCE

Web & E-Learning Developer | Regent Business School

January 2025 - Present

- Manage and support digital learning infrastructure capable of serving 500+ concurrent learners, helping maintain reliable access to online learning environments with 98% platform uptime.
- Develop and maintain 40+ digital learning modules, integrating multimedia and interactive learning resources to improve learner experience and engagement.
- Support the development and delivery of technology-enabled learning experiences across institutional digital platforms.
- Design and maintain institutional websites and digital learning environments, improving accessibility, navigation and user experience.
- Apply web-development, instructional technology and digital-platform knowledge to support effective online course delivery.
- Contribute to continuous improvement of digital platforms by identifying usability and performance issues and implementing practical solutions.

Project Coordinator | Leadworks Foundation Community Knowledge Centre

April 2025 - January 2026

- Coordinated 15+ project activities, training workshops and events, ensuring effective organisation, communication and implementation across multiple initiatives.
- Developed project timelines, activity schedules, task allocations and resource plans to support consistent and timely programme delivery.
- Coordinated stakeholders and project participants across training and community-based initiatives.
- Supported the planning and delivery of workshops and training activities, helping ensure resources, people and programme requirements were effectively coordinated.
- Supervised and mentored 20+ interns and volunteers, providing guidance, development support and constructive performance feedback.
- Worked across multiple projects and competing priorities while maintaining effective organisation and delivery.

Technology Integrator & Coding/Robotics Facilitator | Acudeo College

July 2024 - March 2025

- Coordinated and delivered digital skills, coding and robotics training to learners and educators.
- Facilitated 12 coding and robotics workshops for 300+ students, with 85% progressing to advanced learning modules.
- Trained 35 educators in digital tools including Microsoft Suite and Google Classroom, contributing to a 95% technology adoption rate.
- Designed and delivered 8 professional development sessions, achieving an 88% participant satisfaction rate.
- Supported educators and learners in adopting new technologies and digital learning tools.
- Worked collaboratively with educators and stakeholders to strengthen technology-enabled teaching and learning.

Technical & STEM Programme Coordinator | Siyafunda Community Technology Centre

December 2019 - June 2024

- Coordinated technical training and capacity-building programmes across education and community environments.
- Delivered 50+ training sessions and Train-the-Trainer workshops across South Africa, reaching more than 1,200 educators through Africa Kids Code, SheMeansBusiness and educator development initiatives.
- Established an IT Essentials Instructor development programme, training 25 educators and contributing to programme expansion into 8 additional institutions.
- Supported the growth of Cisco Networking Academy learner cohorts from approximately 50 to more than 200 learners, achieving a 78% course completion rate.
- Facilitated technical and digital-skills training while supporting participants through structured learning programmes.
- Worked with education partners, facilitators and programme stakeholders to expand access to digital skills and technology education.
- Supported programme delivery across multiple locations, learner groups and training initiatives.

PARTNER & MULTI-STAKEHOLDER TRAINING PROGRAMMES

ICT Facilitator | Digify Africa

Strategic Partner Programme

- Delivered Online Safety and Digital Citizenship training to 400+ young people across South Africa, supporting digital-skills capacity building and responsible technology use.
